

# Foley Catheter Adaptor

Task Medical Foley Catheter Adaptor is an essential component of catheterisation procedures, ensuring that connections between catheter are maintained in a sterile and secure manner. By upholding the highest standards of patient care, it plays a significant role in promoting patient safety and clinical effectiveness in healthcare settings.

## Product Information

- Peel pack
- Sterile packaging for contamination-free use
- Universal compatibility with various catheter types
- Secure, leak-free connection to prevent disconnections
- User-friendly design with standardized connectors
- Compliance with medical industry standards
- Single use for infection control
- Prioritizes patient comfort during catheterisation
- EO sterilised

## Packaging

- 50 pieces/bag
- 5 bags/carton
- 250 pieces/carton

## Carton Size

- 40x30x15cm
- G.W 2.56kg
- N.W 2.30kg
