

Multipurpose Hi-Lo Treatment Chair - Grey

TASK
MEDICAL

The Task Medical Multipurpose Hi-Lo Treatment Chair is designed for versatility, providing optimal support for a wide range of medical procedures. Featuring a three-section adjustable design and two powerful motors, it allows seamless height and position adjustments to accommodate both patient comfort and practitioner needs. The integrated armrests offer additional support, while the ergonomic structure ensures stability and ease of use. Ideal for clinics and healthcare facilities, this chair enhances efficiency, adaptability, and patient care in various treatment settings.
